Profile

"I am a **colored, female** front-end web developer with a **creative** outset. I stand for **functional, accessible,** yet aesthetically-pleasing technology. I enjoy **collaborative** and **supportive** work environments."

Interests

Technical Skills

- HTML5, CSS3, SCSS
- JavaScript Fundamentals, jQuery, React
- Working with RESTful APIs & Firebase
- Version Control & Collaboration with
- Git and GitHub
- Universal Accessible Design
- Best practices for modern development
- Team-based Development
- Project Scope Management

Education

**IMMERSIVE WEB DEVELOPMENT
JUNO COLLEGE OF TECHNOLOGY**

July 2020 - October 2020

**B.COMM. HOTEL & FOOD ADMINISTRATION
UNIVERSITY OF GUELPH**

Class of 2016

Featured Projects

**'Skincare Regime' Quiz
jQuery | SASS | HTML5**

An interactive quiz that captures user input with use of radio buttons, and returns a final skincare product. The user can then click on a button that leads to an external link for purchase of that such product.

**Come Wine Down
React | Firebase | axios | REST API | CSS3**

An artistic and user-dynamic application that consists of three sections: a react player ('genre button'; npm), an interactive art box ('search'; API), and a 'sticky thoughts' diary entry (abililty to save/remove thought; Firebase).

Experience

**AIR CANADA SIGNATURE SUITES
DINING ROOM SERVER**

Toronto, ON | 2018-2020

**HOLT'S CAFE YORKDALE
HEAD SERVER**

Toronto, ON | 2016-2017

Transferable skills from the hospitality industry:

- Working in a team environment (stress management)
- Customer experience and relationship maintenance
- Leadership prevalence in training others and knowledge of product, as well as steps to service
- Possessing the ability to perform professionally under pressure
- Quick adaptability within a new space, and being able to learn and problem solve on the spot
- Responsible for the exchange of payment through P.O.S. systems (Silverware, Touch Bistro)
